// PATROL PROGRAM

The ARWEN® System provides front line officers with a variety of less-lethal options that can help them fulfill their duty to manage risks and save lives.

ARWEN® offers in-depth training and extensive support to complement an affordable, versatile system. This system can meet the needs of patrol or specialty units by increasing the range of options available to them. With seven types of specialty munitions and two models of launchers, ARWEN® is the industry leader in Public Safety response involving impact and chemical munitions.

// MANAGE RISK & SAVE LIVES

The versatile ARWEN® platform provides a complete range of less-lethal options to those that need it most; the front line response.
